Each year ACEC of Idaho, representing the consulting engineers of Idaho, sponsors the Engineering Excellence Awards Competition. It is open to all engineering or surveying firms, whether or not they are members of ACEC of Idaho. The competition gives public recognition to those engineering achievements that demonstrate a high degree of merit and ingenuity, and that provide a major contribution to technical, economic, and social advancement.

This year we had some excellent applications and awards, including some that are proceeding onto the National level. Please come and join us in honoring the best projects of 2009 at our awards luncheon on March 8th!

This is the engineering community's time to show off!! Please feel free to invite clients and other guests to the event.
